

THINK · SALES OVERVIEW

AI Transformation Services

Most organizations aren't ready for AI. We fix that — with readiness assessment, Microsoft AI transformation, operating model design, and executive advisory.

Why this matters

AI creates value only when the foundation is right. We help organizations build that foundation and chart a clear path forward — from readiness assessment to enterprise-scale transformation.

Four engagements build the foundation for AI. Each stands alone, and together they form the Think engine of the WunderHub model.

Think → Build → Run

Think establishes readiness and strategy. Build delivers industry operating systems you own. Run operationalizes the enterprise on the OrgOS™ framework.

CORE OFFERING 01

AI Readiness Assessment

A structured evaluation across six organizational dimensions that produces a clear picture of where you are and what it will take to get where you want to go.

We assess

- People — skills, roles, change readiness, leadership alignment
- Processes — standardization, documentation, automation potential
- Technology — current stack, integration debt, platform maturity
- Data — quality, governance, accessibility, architecture readiness
- Security — access controls, data classification, risk posture
- Governance — policies, accountability structures, compliance landscape

Deliverables

- Executive Scorecard
- AI Maturity Assessment
- Prioritized AI Roadmap
- Business Case for Transformation

CORE OFFERING 02

Microsoft AI Transformation

Most enterprises already have Microsoft 365. Few are using it as a foundation for AI. We unlock the full potential of the Microsoft AI stack — from Copilot adoption to Azure AI Foundry deployments.

We work across

- Microsoft Copilot — adoption strategy, governance, use case prioritization
- Microsoft 365 — tenant optimization, data classification, readiness
- SharePoint — information architecture, content governance, AI grounding
- Microsoft Purview — data governance, compliance, information protection
- Power Platform — process automation, custom apps, workflow intelligence
- Microsoft Fabric — unified data platform and medallion architecture
- Azure AI Foundry — custom model deployment and enterprise AI development
- Copilot Studio — custom copilot design and agent deployment

Deliverables

- Microsoft AI Adoption Strategy
- Governance Framework
- Implementation Roadmap
- Pilot Program Design and Execution

CORE OFFERING 03

Organizational Operating Model Design

AI alone does not transform organizations. The operating model does. We apply OrgOS™ principles to redesign how organizations work — aligning people, processes, data, workflows, and intelligence into a unified operating architecture.

We design

- Organizational Architecture — roles, responsibilities, spans of control
- Process Architecture — standardized, documented, automation-ready workflows
- Data Architecture — governed, trusted, AI-ready data foundations
- Workflow Architecture — end-to-end orchestration across functions
- AI Architecture — agents, copilots, automation, and intelligence layers

CORE OFFERING 04

Advisory Retainer

Ongoing strategic support for organizations navigating AI transformation. A fractional executive AI strategy partner embedded in your leadership team — available as needed, without the overhead of a full-time hire.

Retainer services include

- Monthly executive briefings and strategy reviews
- Vendor and technology evaluation support
- AI governance and policy development
- Program oversight and milestone accountability
- Escalation support for delivery teams

Engagement pricing

Transparent ranges, scoped to outcomes. Final pricing depends on scope, complexity, and timeline. Detailed estimates follow the initial executive conversation.

Service / Program	Range
AI Readiness Assessment	\$25,000 - \$75,000
AI Strategy Engagement	\$50,000 - \$250,000
AI Transformation Program	\$150,000 - \$2,000,000+
Advisory Retainer	\$5,000 - \$25,000 / month

Who we work with

- 250 to 5,000 employees
- Manufacturing, Transportation, and Logistics
- Professional Services and Staffing
- Financial Services
- Healthcare

Next step

Schedule an AI Readiness Assessment at wunderhub.ai/engage. We will scope the engagement, align on outcomes, and deliver an executive scorecard your leadership team can act on.
